

Overall Improvement Process

1. Plan

NORTHLAND
DOWNTOWN
MAJOR INVESTMENT STUDY

Area-wide study to decide: What types of general transportation system improvements should be made – and in what general locations?
Timeline: 2001 – 2003

Environmental Impact Statement to decide: How can we best improve this portion of the transportation system while avoiding or minimizing negative impacts? Timeline: 2004 – 2006

WE ARE HERE

2. Design

Create preliminary and final designs; develop detailed construction drawings.
Timeline: Will begin only when funding is identified.

3. Build

Land is purchased, final project plans are complete, construction contract is awarded and construction begins. Construction of this project may be phased.
Timeline: Will begin only when funding is identified.
